

Canon Camera that works with Vantage Point

Canon G26 is my preferred camera. The cable connections for Remote control and HDMI are more robust than the Sony. The camera comes with an offer of two batteries this is the offer to buy. You will also need a memory card to record onto. 32GB or 64GB

<https://www.connscameras.ie/p/canon-legria-hf-g26/p-8714574657165>

Select the offer @999€ with extra battery

Sony cameras will work with most of the towers on the market, but you always must **pay extra care** with strain relief because their connector ports are more fragile/delicate than Canon.

Sony Cameras that work with Vantage Point

The AX Range of 4k Sony Cameras

FDR-AX1, FDR-AX30, FDR-AX33, FDR-AX53, FDR-AX100, FDR-AXP35, HDR-AX2000

The AX 33 £700 approx. incl VAT

AX 53 £800 approx. incl VAT
